

FLEXKNEE

Grueling deep knee work requires tough protection. Designed with lightweight pads capped by large abrasion-resistant rubber caps for long-lasting wear. The rubber cap allows maximum flexibility while maintaining a secure fit. Excellent for non-slip, hard surface work environments. **Sold per pair. Order No. SD371**

DELUXE SOFTKNEE

An extra wide foam pad makes this knee pad the most comfortable in the industry. Designed with a tough water-resistant cover and no kneecaps, it is perfect for jobs where protecting the work surface is a primary concern. 1 1/2" elastic straps are adjustable and are equipped with velcro closures. **Sold per pair. Order No. SD369**

WELDING KNEE PAD

Made of heat resistant leather with a flexible non-skid cap designed to stand up to the everyday demands of the welding environment. Not just for welding jobs, this knee pad is a good choice in any high heat applications such as smelters and foundries. **Sold per pair. Order No. SM777**

RUBBER NON-SLIP/MARK KNEE SHIELD

Generously padded protection for sensitive knee area. Added internal reinforcement of eyelet/grommet area. Recessed rivets prevent scratching of work surfaces. White shields are non-marking. Padded backing. Two wide elastic straps fasten above and below the knee. **Sold per pair. Order No. SAN389**

HARD SHELL KNEE PAD

Hard, durable, shell caps with tough fabric. Thick foam padding and adjustable closures. Ideal for professional trades. **Sold per pad. Order No. TN241**

MAXRIST®

Maxrist® offers a restrictive metal spoon stay that fits in the palm to eliminate the symptoms of carpal tunnel syndrome and other repetitive strain injuries. Its lightweight flexible material does not hinder finger movement.

DUAL-FLEX™

- For firm support, contains four stays on the front and back of the wrist to limit flexion (downward) extension (upward) movement
- Encourages neutral wrist position
- Straps wrap completely around the wrist for added support
- Lined to keep hands dry
- Ambidextrous
- Available in black
